# BRITISH CORROSION JOURNAL

**1990 Volume 25**

***Silver Jubilee year***

*Consulting Editor*

A. D. Mercer

**Published by:**
**The Institute of Metals, 1 Carlton House Terrace, London SW1Y 5DB**

# British Corrosion Journal Annual contents 1990

*EFC Medal address* **Korrosionscentralen: 25 years of corrosion expertise**
H. Arup . . . . . 19

*Cavallaro Medal address* **Corrosion on the atomic scale**
J. Oudar . . . . . 21

*Silver Jubilee review* **25 years of research in atmospheric corrosion**
G. O. Lloyd . . . . . 30

**Corrosion of iron in 0·5M $H_2SO_4$ containing hydrogen peroxode**
H. Bala . . . . . 34

**Corrosion behaviour of quaternary Al–Li–Cu–Mg alloy in 3·5%NaCl solution**
T. S. Srivatsan, T. S. Sudarshan, and G. E. Bobeck . . . . . 39

**Growth of hydrous oxide films on aluminium alloy AA6351 in glycol–water solution**
C. Monticelli, G. E. Thompson, J. L. Dawson, G. C. Wood, and G. Trabanelli . . . . . 46

**Effect of rust converting treatment on corrosion rate and sulphate nest development in prerusted steel**
O. Kušnierik and J. Votradovcová . . . . . 52

**Initial stages of chloride induced atmsopheric corrosion of iron: an infrared spectroscopic study**
A. M. G. Pacheco, M. G. I. B. Teixeria, and M. G. S. Ferreira . . . . . 57

**Pitting behaviour of corrosion resistant steels in synthetic mine waters: Part 1**
N. H. Cotterrell, R. E. J. Noel, and C. Allen . . . . . 60

**Pitting behaviour of corrosion resistant steels in synthetic mine waters: Part 2**
N. H. Cotterrell, R. E. J. Noel, and C. Allen . . . . . 66

**Corrosion prevention and control at Sellafield nuclear fuel reprocessing plant**
R. D. Shaw . . . . . 97

**Corrosion monitoring techniques used in water supply systems**
E. A. Vik, T. L. Nilsen, and P. Hallberg . . . . . 108

**Atmospheric corrosion survey of New Zealand**
R. J. Cordner . . . . . 115

**Non-chromate corrosion inhibitor for cooling water systems**
F. Al-Hajjar and W. T. Riad . . . . . 119

**Recording polarisation curves in thin electrolyte layers by electrochemical atmospheric corrosion monitors**
J. A. González, E. Otero, and C. Cabanas . . . . . 125

**Influence of minor additions of lanthanum, cerium, and neodymium on corrosion behaviour of aluminium bronze in sulphuric acid solution**
N. Verma, W. R. Singh, S. K. Tiwari, and R. N. Singh . . . . . 131

**Influence of water content on corrosion of iron and steel in organic solvents**
G. Capobianco, P. Venti, and F. Bellucci . . . . . 133

**Impedance and photoelectrochemical measurements on passive films formed on metallic biomaterials**
R. Silva, M. A. Barbosa, B. Rondot, and M. Cunha Belo . . . . . 136

**Effect of pretreatment on corrosion and wear performance of plated and diffusion annealed sintered parts**
R. C. Leu and L. Alting . . . . . 171

**Surface treatments for corrosion protection of sintered iron parts**
M. J. Nash . . . . . 173

*Silver Jubilee review* **25 years of progress in electrochemical methods**
J. M. Sykes . . . . . 175

**Rotating split ring disc electrode study of corrosion of iron in near neutral and alkaline solutions**
J. Wilinski, J. Flis, and P. Kedzierzawski . . . . . 184

**Protection by epoxy films**
J. E. O. Mayne . . . . . 189

**Intergranular corrosion in low interstitial 40%Cr ferritic stainless steels**
M. A. A. Tullmin, M. J. Whitcomb, M. B. Cortie, and F. P. A. Robinson . . . . . 191

**Corrosion inhibition of 304 stainless steel in $H_3PO_4$–$Cl^-$ solutions by chromium, molybdenum, nitrogen, tungsten, and boron anions Part 2: AES measurements**
A. A. El Hosary, M. M. Badran, R. M. Saleh, and H. A. El Dahan . . . . . 197

**New computational method to determine Tafel slopes and corrosion rates from electrode kinetic measurements**
I. Qamar and S. W. Husain . . . . . 202

**Diffusion controlled corrosion of pipelines under turbulent flow conditions**
G. H. Sedahmed, B. A. Abdel-Naby, and S. G. Tantawy . . . . . 205

**Control of corrosion of carbon steel in crude oil distillation units**
F. M. Al-Kharafi and F. H. Al-Hajjar . . . . . 209

**Corrosion and deposition of magnetite in ferritic steel generator tubes under acid chloride conditions**
C. B. Ashmore, L. Tomlinson, P. J. B. Silver, and A. P. Mead . . . . . 213
***Silver Jubilee review* Stress corrosion cracking: 1965–1990**
R. C. Newman and R. P. M. Procter . . . . . 259
**Accelerated atmospheric corrosion of copper and copper alloys**
A. Sterling, A. Atrens, and I. O. Smith . . . . . 271
**Measurement of hydrogen concentration in BS4360 grade 50D carbon–manganese steel using an electrochemical probe**
M. J. Robinson and D. R. J. Hudson . . . . . 279
**Use of electrochemical current noise to detect initiation of pitting conditions on copper tubes**
S. Smith and R. Francis . . . . . 285
**Corrosion morphology of copper in dilute sulphate, chloride, and bicarbonate solutions**
H. M. Shalaby, F. M. Al-Kharafi, and A. J. Said . . . . . 292
**Electrochemical behaviour of conversion coatings on ferritic stainless steel for solar absorber coatings**
L. Aries, J. A. Flores, J. Roy, and R. Calsou . . . . . 299
**Electrochemical corrosion characteristics of Ni-Resist type 2 in sea water containing ferrous sulphate**
M. B. Daud, G. Venkateswaran, and K. S. Venkateswarlu . . . . . 303

**Bengough Medal and Prize 1990** . . . . . 74
**Book reviews** . . . . . 15, 79, 159, 254
**Conference reports**
**Corrosion pitting and its practical implications: penetrative aspects of pitting** . . . . . 11
**Corrosion pitting and its practical implications: statistics, initiation, and propagation** . . . 88
**Corrosion and corrosion control in drinking water systems** . . . . . 91
**11th International Corrosion Congress** . . . . . 92
**EFC Workshop on Microbial Corrosion** . . . . . 163
**Corrosion of reinforcement in concrete** . . . . . 164
**7th European Symposium on Corrosion Inhibitors** . . . . . 246
**Titanium in practical applications** . . . . . 251
**1st European Marine Corrosion Forum** . . . . . 252
**Acidic deposition** . . . . . 252
**Asian–Pacific corrosion experiences** . . . . . 253
**Corrosion news and views** . . . . . 1, 73, 145, 229
**Corrosion related items in other institute journals** . . . . . 141
**Corrosion research profiles**
**Shell Research** . . . . . 1
**Paint Research Association** . . . . . 129
**A. Dacco Corrosion Study Centre** . . . . . 232
**Forthcoming corrosion events** . . . . . 8, 84, 168, 243
**Instructions to authors** . . . . . 143
**Letter to the Editor** . . . . . 148
**Obituary: Harold Silman** . . . . . 147
**Standards news** . . . . . 5, 77, 151, 239
***Including***
**Corrosion standards development in Europe** . . . . . 75
**ISO/TC156: Corrosion of Metals and Alloys, Boston meeting** . . . . . 150
**Corrosion standards: international and European developments** . . . . . 234
**Zinga: brush applied zinc rich protective coating** . . . . . 241
